This app is supported by ads. Internet access permissions are only used to load ads. Frequently Asked Question: Q: Why can't I see Chinese fonts? A: Some Android device manufacturers do not provide Chinese fonts with Android systems. Currently, the only solution is to install fonts after the root of the device. This procedure will immediately cancel the device warranty. Please take this into account is the issue of the manufacturer and there is little we can do to fix it from the app. Q: How do I share a translation? A: Simply press 2-3 seconds via translation and you will be presented with a menu with all sharing options available based on the apps installed in your device (Email, SMS, Facebook, etc.) Q: How can I change the speech speed? A: Greeting speed is controlled by an TTS engine installed with Android. It can be provided by going to: Settings --> Voice Input &> Text to speech settings --> speech rate Q: I don't like voice. How can I improve it? A: The default text-to-speech engine installed with Android is Pico TTS, it's pretty simple and sometimes likely to sound a little electronic. You can always alternatives such as eSpeak, SVox or IVONA from Android Market. Please check our blog posts on this subject: S: How can I change the speech language? A: Simply go to Menu Settings --> and select select Language. Currently, 3 languages are available: * English (US) * English (GB) * Chinese (if installed) Parental rating: Everyone (aged 6 years and above) Default language: English Requires Google Play and/or account: Not Requiring party libraries Third: Doesn't Require a 'rooted' device: No target version of Android: Android 4.0 Minimum Android Version: Android 1.6 Minimum screen width: 240 dpX Requires features: Touch screen Requires permission: Access network conditions, Internet FOLLOW THE US Chinese English Dictionary is an application that, As the name may be, gives you the possibility to translate words from Chinese into English. The dictionary is available in a built-in, offline database, which means that you don't need to be connected to the Internet to translate text. Easily translating Chinese words into English For example, this app is useful for school projects where it is necessary to practice your Chinese or English vocabulary. However, you should know that reversal operations are not possible, so you cannot use this application to translate words from English to Chinese. The Metro dictionary application with text-to-speak functionality of this language translator database contains more than 100,000 entries, and it allows you to hear how both Chinese and English words are pronounced, a feature that requires Internet access. Developed as a Metro app for Windows 8, 8.1 and 10 computers, including touch-supported devices, chinese English Dictionaries can be downloaded and installed from Windows Stores. Displaying search results in real-time Modern UI is elegant and neatly organized, and it has a search function that displays results in real-time (as you type). All you have to do is enter a word or phrase in Chinese, look at suggestions, and click the entry to find more about the translation. It is possible to find it on Pinyin, with or without tone. Traditional and simplified characters are displayed for all entries in the dictionary. Text-to-speech functions don't work in our tests If you double-click the screen (left mouse button), you can copy text to the Clipboard and ask the app to speak. Unfortunately, the text-to-speech function doesn't work in our assessment, because the application failed to identify an active Internet connection. In conclusion All things considered, the Chinese English Dictionary provides an orderly dictionary to translate Chinese into English. However, the text-to-voice feature doesn't work in our case.
